

FOR IMMEDIATE RELEASE

**New PureGear Dual USB-PD Wall and Car Chargers
Deliver up to 4x Faster Charging to Your Phone and Devices**
*Dual USB ports on each charger means quick charging of more than one device
simultaneously*

CES 2019 – LAS VEGAS, Nev., – January 7, 2019 – [PureGear](#) today announced its line of USB-PD wall and car chargers, charging up to four times faster than standard, in-box chargers. The PureGear Dual USB-C Wall Charger and Car Charger feature two USB-C ports, allowing for charging of USB-C and Lightning devices, while the PureGear Dual USB Wall Charger and Car Charger are compatible with more devices, each having one USB-C and one USB-A.

“With the multitude of apps, music and video we’re streaming, our phone batteries can take a hit,” said Mike Cavanah, president of PureGear. “And, who can wait around for a full charge on their phone? We understand people have more than one device to charge, especially while traveling. Or, they’re in the car with a friend or family member whose phones also need a charge. In our product development process, we designed to these needs, conscientious of today’s demanding, active lifestyles.”

PureGear Dual USB Wall Charger, 57W – available February 2019 – \$49.99
