

POWER UP FASTER WITH PUREGEAR'S EXTREME CHARGERS.

[October 22, 2014] Irwindale, CA – We're all busy. Who has time to sit around, waiting for a mobile device to charge? With PureGear's Extreme USB Wall and Car Chargers, those days are over.

PureGear's Extreme Chargers feature Qualcomm® Quick Charge™ 2.0 enabled technology, which can dramatically reduce charging time by up to 75% when paired with a Quick Charge 2.0 enabled mobile device. By pairing an Extreme Charger with compatible devices like the HTC One (M8), Samsung Galaxy Note 4 or Samsung Galaxy Edge, you'll be able to power up in record time at home, in the office, or in the car – and get on with your day.

Don't have a Quick Charge 2.0 enabled device? Extreme USB Wall and Car Chargers are universal, so you can also use them to power up any smartphone or tablet, even if it isn't Quick Charge 2.0 enabled. The Extreme Car Charger features a USB port and a sleek design that fits into a glove box or console. The Extreme Wall Charger features a USB port with retractable prongs that make it easy to stash in a drawer or bag.

ABOUT PUREGEAR

At PureGear, we believe that wireless technology should simplify your life, not weigh it down. This is why we design reliable mobile device accessories that complement today's demanding, on-the-go lifestyles. Our products are designed with added features and benefits that make sense – for work or play. We're also committed to providing you with premium quality at an affordable price. After all, we understand that devices change faster than your kids' favorite toys, the latest diet fads...possibly even the stock market. With this in mind, it is our goal at PureGear to simply enrich your everyday mobile life experiences while respecting your wallet and our world.
